MILLITEMP thermostat series

Modern thermostats for electric floor heating.

DESCRIPTION

Modern thermostats for controlling electric heating cables embedded in floor constructions. Polar white colour, fits in most connection/wall boxes.

TECHNICAL DATA:

Rated voltage 230 V~

Own consumption < 2 W

Maximum load 16A (approx. 3600W at rated voltage)

Switch (ON/OFF) Electronic

Temperature range From +5°C to +40°C (default)

Designed working temperatures for sensors

1-50 °C (Room sensor)

1-80 °C (Floor sensor)

Dimensions 84x84x40mm (25 mm socket)

Encapsulation IP 21

Cross section area, connecting wires 0,5 mm² - 2,5 mm²

Max. number of heating cables 3

Length floor sensor cable 3 m

Sensing element NTC

Display LCD (blue backlighting)

STANDARDS

International EN 60730-1;
EN 60730-2-9
